The Motion by the City and County of San Francisco for Determination that Automatic Stay Does Not Apply Under Section 362(b)(4), or in the Alternative, for Relief From the Automatic Stay under Section 362(d)(1) (the "Motion") relating to certain proceedings between the City and County of San Francisco ("San Francisco") and Pacific Gas & Electric Company (the "Utility"), one of the debtors herein, came on for a hearing before the undersigned on May 9, 2019. All appearances

1 for this matter are noted on the court record.

2 The Motion seeks determination that the automatic stay does not apply, or in the
3 alternative for relief from the automatic stay regarding certain disputes between San Francisco and the
4 Utility pending at the Federal Energy Regulatory Commission ("FERC") described in the Motion as
5 follows: 1) The City's 2014 Complaint and related consolidated disputes on service regarding the
6 Wholesale Distribution Tariff (FERC Proceeding Nos. EL15-3, ER15-702, ER15-703, ER15-704,
7 ER15-705, ER15-735), 2) pending disputes regarding PG&E's quarterly filings (FERC Nos. ER17-
8 910, ER17-1509, ER17-2181 and ER18-1102), and 3) The City's January 2019 Complaint (FERC

10 For the reasons set forth on the record, to any extent that the automatic stay applies to
11 all or some part of the San Francisco FERC Proceedings, the automatic stay of Section 362 of the
12 United States Bankruptcy Code is hereby modified, as follows:

- 13 1. To allow San Francisco to prosecute and/or defend and FERC to continue to
14 hear the San Francisco FERC Proceedings.
- 15 2. To allow FERC to enter such orders that FERC finds are appropriate in the San
16 Francisco FERC Proceedings, including, but not limited to orders determining a
17 monetary recovery, if any, by San Francisco in the San Francisco FERC
18 Proceedings.
- 19 3. The automatic stay shall continue to apply to the allowance of claims, within
20 the meaning of the Bankruptcy Code, or the enforcement of any monetary relief
21 awarded in connection with the San Francisco FERC Proceedings.
